"WITHIN AN HOUR OF MY CALL."

Port Moody. Broken spring. Car trapped inside.

★★★★★

Brian was here (Port Moody) within an hour of my call (broken spring and car was trapped) and had the job done within another hour. He even checked my other garage door while he was here. I definitely recommend this company.

L.F., customer (excerpt)

"HIS WORKMANSHIP WAS IMPECCABLE."

Brian called ahead and gave honest advice.

★★★★★

Excellent service. First, Brian called to give me the heads up just before his arrival. He was informative and honest about the various motors I was considering. His workmanship was impeccable.

"BRIAN CAME FIRST THING THIS MORNING."

Called one day, fixed the next morning.

★★★★★

We called Best Choice Garage yesterday and Brian came first thing this morning ... He replaced springs and handled completely professional. Friendly and reliable.

"THE JOB DONE RIGHT AT A FAIR PRICE."

Fixed fast, with maintenance tips included.

★★★★★

BRIAN came by and fixed all my issues quickly and professionally with great expertise. He pointed out maintenance issues I should be mindful of and really provided an extra level of fantastic customer service.

DRAFTS UNDER YOUR DOOR?

Light coming through the bottom is a sign.

A worn bottom seal lets in water, dirt, pests and cold air. A new weather strip is a small fix that protects your garage.

Weather strips

CALL OR TEXT 604-240-0180

bcgaragedoors.ca

YOUR DOOR RIDES ON ITS ROLLERS.

Nylon rollers are strong and quiet.

New nylon rollers keep your door rolling smoothly and protect the other moving parts. No bearings to wear out.

Roller service

CALL OR TEXT 604-240-0180

A YEARLY CHECK BEATS A BREAKDOWN.

Small wear turns into stuck doors.

Routine maintenance catches early strain before it becomes a stuck door, loud operation or a safety risk.

Maintenance

CALL OR TEXT 604-240-0180

bcgaragedoors.ca

CABLES LAST 8 TO 15 YEARS.

In the Lower Mainland they can wear faster.

Steel cables stretch, fray and weaken, often with no warning until they snap. Past 7 to 10 years, have them inspected.

Cable replacement

CALL OR TEXT 604-240-0180

bcgaragedoors.ca

A DOOR OFF ITS TRACK IS UNSAFE.

Most track repairs are done in one visit.

Bent tracks make a door bind, jerk or stall halfway. We find the exact cause first, then test the door before we leave.

Track repair

bcgaragedoors.ca

DENTED PANEL? NO NEW DOOR.

If the panel can be repaired, we fix it.

A dented, cracked or bent panel does not mean a brand-new door. We never push replacements or unnecessary upgrades.

Panel and section repair

CALL OR TEXT 604-240-0180

bcgaragedoors.ca

KEYPAD NOT RESPONDING?

We reset, reprogram or replace it.

A dead keypad can lock you out or leave your home unsecured. We use LiftMaster-compatible parts.

Keypad repair

CALL OR TEXT 604-240-0180

bcgaragedoors.ca

CLICKER DEAD OR LOST?

We reprogram or repair yours first.

If your remote is unresponsive, lost or worn out, we get it working again on site. No parts you do not need.

Clicker repair

CALL OR TEXT 604-240-0180

bcgaragedoors.ca

DOOR GOING CROOKED? STOP.

Do not keep moving it.

A crooked door that keeps moving can damage more parts or come down on your car or family. Stop it, then call us.

Garage door tip

CALL OR TEXT 604-240-0180

bcgaragedoors.ca

SINCE 1991, PHOTO EYES ARE REQUIRED.

Does your opener have its safety sensors?

Photo eyes are mandatory on all new garage door openers in Canada. No safety sensors on yours? Your family is at risk. We can check.

Garage door tip
